

### Contact Lens Evaluation and Management Agreement

The fee for contact lens evaluation and management by your eye care professional is not included in your comprehensive eye exam. The price of the management fee is dependent upon the type of contact lens that your doctor recommends based on your prescription needs and follow up visit(s). The fee covers all subsequent diagnostic contact lenses and follow ups within a 90 day period. Should you choose to make any changes to your lens type or prescription after 90 days, additional fees may apply. Our goal is to provide you with the best quality of vision, while also keeping in mind that your eye health is of the utmost importance.

### Policies

- Charges for contact lens management are due in full at time of service
- Professional fees for contact lens management and evaluation are non-refundable
- Many insurance plans do not cover the full cost of contact lens fees. You will be responsible for any costs incurred past your insurance contribution, if applicable.
- You will be responsible for scheduling and attending follow up visits. A prescription will not be issued until it is finalized by your doctor.
- The fee for evaluation and management does not cover the cost of your contact lens materials.
- Contact lens material purchases may be returned for a refund up to **30 days** from purchase. After 30 days, contact lens purchases may be returned for credit to your account. In either case, boxes must be unopened, unmarked and not expired.
- Your contact lens prescription is valid for 1 year from the issue date. Once your prescription has expired, you may not purchase contact lenses or receive diagnostic contact lenses with it.
- Should you choose to purchase contact lens materials through Envision Ghent Optometry or DrContactlens, you will receive replacement diagnostic lenses free of charge if ever you should rip or lose a lens, or if you run out before your next comprehensive examination. This offer stands so long as your prescription is valid. It is your responsibility to schedule and attend your annual exam in order to maintain a valid prescription.
- Your contact lens prescription is not the same as your eyeglass prescription. This Federal Guideline is managed by the Fairness to Contact Lens Consumers Act.
