## Retinal Exam

### Ultra Widefield Retinal Imaging

Dr. Gina Dyda-Schmid offers a state-of-the-art digital scanning technology that allows us to view the inside of your eye *without* the use of dilation drops. The OPTOMAP allows our doctors to evaluate your retina for problems such as Macular Degeneration, Glaucoma, Retinal Holes, Retinal Detachments, Hypertensive / Diabetic Retinopathy and much more. The scanning system is completely safe for children and adults. It allows you the opportunity to see inside of your eyes just as the doctor sees it!

Our standard of care protocol **REQUIRES ALL PATIENTS** to have a thorough examination of their retina each year. There is an additional fee of \$39.00 for the OPTOMAP scan. In most cases, this scan is **NOT COVERED BY INSURANCE OR HAS A \$39.00 CO-PAY**. Dilation may still be required in some cases such as Glaucoma or other conditions.

#### OPTOMAP Exam

1. No blurred vision
2. No light sensitivity
3. The scan takes less than 2 minutes.
4. Digital image that can be reviewed / compared each year.
5. You will be able to see your retinas.

In some cases, Dr. Dyda may order a lipiscan test be performed for Meibomian Gland Dysfunction (dry eye). ~~If~~so, there will be a \$20.00 fee associated with this test.
